

Join us for an in-depth adult natural history course. Each month, we will explore a seasonal natural history topic, with a local naturalist/citizen scientist. We will study broad perspectives of unique Cape Cod, the individual details of specific species, adaption, climate change and the impact of the legacy of Thornton Burgess. Bring your curiosity to explore and discover the Nature around you. Dress for the weather, as we rarely cancel. Consider sturdy hiking footwear. Bring water, snack, binoculars, hand lens, sunscreen, etc.

First Saturdays,* May-December, 2018
9am-Noon

\$199/Series or \$30 Each

Space limited to 15 participants
 (adults and teens ages 16+)

Please call for reservations 508.888.6870
