

Peter Rabbit Gazette

Week 4

Hi! It's Peter and look who I ran into at the Green Meadow Forest. Hooty the Owl flew in through the open door to see what was going on for himself. He found a great perch on a tree in the Forest. While he was there, I asked him if he had heard any great insights and did he ever! They are going to build a bridge next week. They are also going to have fun interactive activities for children to play with throughout the Forest. Many of our friends are going to be represented as well. I was so glad to run into Hooty and all that he was able to overhear.

You can be part of the action. Help us add more 3-D characters to the Green Meadow Forest Family and renovate the animal room!
